Subject: Notification of Street Vacation for Property Addition at 701 Dartshire Avenue,
Job No. 2004-0449

Dear Mr. Mariano:

The Santa Clara Valley Water District (District) staff received the subject project on June 7, 2004.

The subject project does not affect any District facility. Therefore, in accordance with District Ordinance 83-2, a District permit is not required.

District records show there are no registered wells located on the subject parcel. In accordance with District Ordinance 90-1, the owner should show any existing well(s) on the plans. The well(s) should be properly registered with the District and either maintained or abandoned in agreement with District standards. Property owners or their representatives should call the Wells and Water Production Unit at (408) 265-2607, extension 2660, for more information regarding well permits and the registration or abandonment of any wells.

If you have any further questions or comments, please call me at (408) 265-2607, extension 2731. Please reference District File No. 30182 on any future correspondence regarding this project.

Sincerely,

Usha Chatwani, P.E.
Associate Civil Engineer

RE: Partial Street Vacation @ 701 Dartshire Way, Sunnyvale

Dear Ms. Chu:

This correspondence is in response to your letter dated July 26, 2004 requesting SBC California's concurrence with the proposed vacation of a portion of Dartshire Way as shown on the attached plat.

Engineering has reviewed our records and determined that we have existing underground facilities located within the Southerly ten feet of Dartshire Way from Flamingo Way, West. Therefore, SBC California agrees to vacate the street right of way as requested with the following reservation: **The Southerly ten feet of Dartshire way be reserved as a Public Utility Easement.**

The required easement is marked in red on the attached plat map as requested. Please call me at (408) 493-8713 if you have any questions regarding the information above.

Sincerely,

Re: Street Vacation
Portion of Dartshire Way at Flamingo Way, Sunnyvale
File: 40322879-y04-VA-17

Dear Mr. Shork :

In response to your request, PG&E has completed the review of this street vacation, and has no objection and hereby consents to the proposed Street Vacation at the above referenced location- as shown on Exhibit Map, with reservation of two P.U.E. as shown on attached Exhibits B-1 and B-2.

As a condition of this consent, we request that you contact the City/County to send this office a certified copy of the final resolution of the street vacation.

Please send a copy of the resolution to PG&E, Lead Land Technician, 111 Almaden Boulevard, Room 814, San Jose, CA 95115 and reference our file number 40322879-y04-VA-17.

Please also be advised that PG&E may still have underground electric and gas facilities in nearby area, therefore, please contact U.S.A. (Underground Services Alert) at least 48 hours prior to any excavation so that the underground facilities may be located. The toll-free number is 1-800-642-2444.

For your information, our underground facilities are generally 24" to 36" deep. However, the depth may have changed since they were originally installed. This is due to street reconstruction and general area changes.

If you have any questions, please feel free to call me at (408) 282-7401.

Sincerely;

Alfred Poon
Land Agent
